"I love to live.!" said a stripling bold, "I will seek for fame-I will toil for gold," And he form'd in his pleasure many a plan, To be carried out when he grew a man. "I love to live !" said a love: true. "Oh, gentle maid, I would live for you!

"I have labor's hard in search for fame-

I have found it but an empty name." "I love to l've!" said a happy sire, As his children near'd the winter's fire; For his heart was cheer'd to see their joy, and he almost wish'd himself a boy.

"I love to live!" said an aged man, Whose hour of life was well nigh run, Think you such words from him were wild. The old man was again a child.

And ever thus, in this fallen world, Is the banner of hope to the breeze unfol'd, And only with a hope on bigh -Can a mortal ever love to die.

To Make YELLOW BUTTER .- A writer in the Dollar Newspaper says:

There has been a great deal said and written concerning yellow butter in the winter season. Some have recommended volks of eggs. I have tried that to my satisfaction. It will scarcely mix with the eggs, and when you come to work the butter, (that is if you work it right,) the eggs will work out, leaving the butter as at first. The plan which we pursue and find best is this: Scrape a piece of carrot with a knife, then take the scrapings and steep them as you would tea. After steeping strain the juice from the carrot and put in the cream just before churning. There should be about a pint of the liquid to ten pounds of butter. Milk is rather better than water.

Monkeys Dying of the Cholera. -The Port of Spain Gazette, of the 20th of September, reports the following singular fact from Trinidad: Several hunters and other persons who have passed through the woods recently, report that they find the monkeys dead under the trees in all directions. They appear to have dropped Cambric from the tree overhead, either dead or in the agonies of death. During the small pox epidemic the same thing was observed, and there can be little doubt that in the Lace present case they are attacked by the other proof of the very close resemblance Cord Kid Glov-s 62%c. a pair Cambric Bands \$1 to \$1 50 prevailing epidemic. Surely this is an between the physical constitution of the monkey tribe and the proud genus homo. Dress Caps, silk and thread Iliusions

ANTIDOTE FOR STRYCHNINE. - Camphor has been discovered to be an antidote for that terrible poison-strychnine. A man who had been thrown into convulsions by two doses of the poison-one-sixth of a grain each, administered for the rheumatism-was relieved by twenty grains of camphor, taken in six grains of almond mixture. Dr. Suddock, in a letter to the Loudon Lancet, claims to have made the discovery.

Dear Sir-With great pleasure I inform that your preparation of Beech Drop has accomplished for me what I thought beyond the reach of human ageoc; For the last twelve years I have been afflicted with Scrofula of a Cancerous form. Through a friend I procured a half dozen bottles of your Beech Drep, after using it, so perfect was the cure, that hundreds visited me. My desire is to benefit my fellow man; with that purpose I beg all afflicted with Scrotula in any form Enclosed you will find an order from some friends for the preparation. Very truly, JNO. C.
